CAREER OBJECTIVE

Motivated and detail-oriented M.Sc Artificial Intelligence student with hands-on experience in Python development, AI concepts, REST APIs, and full-stack web development. Passionate about building practical AI and web-based solutions with strong problem-solving and analytical skills. Eager to contribute to innovative projects while continuously learning emerging technologies.

WORK EXPERIENCE

Python Development Intern | Nitroware Technology, Coimbatore | May 2024 – Jun 2024

- Strengthened foundational Python programming skills through structured training and hands-on exercises.
- Gained practical exposure to real-time project implementation during the final phase of the internship.
- Worked on debugging, logical problem-solving, and basic application development tasks.

Artificial Intelligence Intern | Skillvertex (Virtual) | Sep 2023 – Oct 2023

- Learned core Artificial Intelligence and Machine Learning concepts with practical applications.
- Successfully completed an assigned AI-based project independently.
- Developed understanding of data handling, model concepts, and AI workflows.

EDUCATION

Master of Science (M.Sc) – Artificial Intelligence | St. Joseph College of Arts and Science | 2025 – 2027 (Ongoing)

Bachelor of Science (B.Sc) – Computer Science | St. Joseph College of Arts and Science | 2022 – 2025

PROJECTS

College Symposium Management Web Application

Tech Stack: Python, Flask, SQLite, HTML/CSS, Jinja2

- Built a full-stack web application to manage student registrations for college symposium events.
- Implemented secure authentication using hashed passwords (Werkzeug), session management, and auto-generated temporary passwords for account recovery.
- Developed an admin dashboard with real-time registration monitoring, team ID auto-generation, and participant management.
- Integrated CSV export functionality for event-wise and all-registration reports.

Bangalore Pincode Explorer

Tech Stack: Node.js, Express.js, React, REST APIs, HTML/CSS

- Developed a full-stack REST API application to search Bangalore area names using pincodes and vice versa.
- Built structured REST API endpoints (Node.js/Express) with input validation and error handling.
- Designed a responsive React frontend with debounced live search and autocomplete suggestions.
- Integrated a real-time API health indicator to display backend connection status in the UI.

CERTIFICATIONS

Artificial Intelligence in Tamil | NIELIT (Virtual) | Mar 2026

Artificial Intelligence | Skill Vertex (Virtual) | Aug 2023 – Sep 2023

TECHNICAL SKILLS

Python | Flask | SQLite | Node.js | Express.js | REST APIs | React | JavaScript | HTML/CSS | Git & GitHub | AI & Machine Learning | API Integration

SOFT SKILLS

Leadership | Communication | Problem Solving | Analytical Thinking | Team Collaboration

EXTRACURRICULAR ACTIVITIES

- Served as Class Representative during undergraduate final year and postgraduate first year.
- Competed at district-level Chess tournaments and earned certificates and medals.
- Interested in Human Psychology and behavioral studies.
